# Fragments of Beautiful Scenes

ときに偶発的に、ときに必然的に生まれるアート。  
インスピレーションが生み出した瞬間的な美しさも、  
時間や労力をかけて辿り着いたドラマティックな美しさも、  
どれも等しく感性を刺激し、日常を忘れさせ、心を満たしていく。  
そんな体験が待つ至高のホテル空間に、“PREGANO（プレガノ）”。

*Art arises, at times, by accident; at times, of necessity.  
Whether achieved in an instant of sudden inspiration  
or painstakingly crafted over time, beauty - in all its forms -  
stimulates the senses, delights the mind, and captures us in the moment.  
For premier hotels seeking this kind of beauty, let PREGANO accentuate the sublime.*

Cutout for the indicator lock / partitioning lock

Observe the tolerance dimensions marked .※ to avoid affecting the operation of the lock.

Attention when installing  
Indicator Lock or Partitioning Lock  
on suspended wooden door.

After installation, some warp may arise on the door, and consequently Latch of Lock may not mesh with Strike correctly. In order to avoid such trouble, it is advisable to construct with narrow clearance (e.g. 1mm or less than that) on both sides of the bottom guide rail (dimension "a").

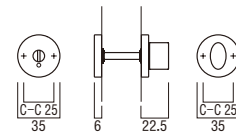

P.82

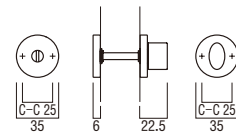

Figure 1 consists of two schematic diagrams, (a) and (b), illustrating the test set-up. Diagram (a) is a top view of a rectangular plate with overall dimensions of 450 mm by 360 mm. The plate is divided into sections with dimensions 50, 150, 200, 200, 200, 200, 150, and 50 mm. A central section is labeled 1000. Diagram (b) is a side view showing the plate thickness and the position of the test set-up.
